Class Inequality in the Global City: Migrants, Workers and ... Singapore has embraced its status as a global city – one with worldwide financial influence and a cosmopolitan population. Yet this status depends on the precarious livelihoods of its many migrant workers, who make up about a quarter of its residents. Class Inequality in the Global City by J. Ye (ebook) This book's relational approach to theorizing how labor migration and markets, national state aspirations and policies, and workers' diverse class identities, subjectivities, and aspirations express in place yet are always also embedded in the processes/relations that make a 'global' city is deeply important for critical scholars interested in contemporary urban development politics, global economies, labor migration, and relational approaches to poverty and inequality." - Sarah Elwood ... Class Inequality in the Global City | SpringerLink Through the analysis of three different groups of workers in Singapore, Ye shows that cosmopolitanism is an exclusive and aspirational construct created through global and national development strategies, transnational migration and individual senses of identity. This dialectic relationship between class and cosmopolitanism is never free from power and is constituted through material and ...
