ABSTRACT Classification trees are attractive in that they present a simple and easily understandable structure. But on many data sets their accuracy is far from optimal. Much of this lack ... CART Bagging Trees Random Forests - University of Colorado ... Leo Breiman 1. Outline Regression Tree / Classification Tree Snow Example Pruning, Cross-Validation Example in R Compare to linear regression Bagging Random forests Another Example in R 2. Regression Tree Algorithm 1. For all V-1 predictors, order it's values (separate into categories) partition the sorted predictor variables at every delta in the sorted values (or by excluding any category ... Classification and Regression Trees - Leo Breiman, Jerome ... Classification and Regression Trees reflects these two sides, covering the use of trees as a data analysis method, and in a more mathematical framework, proving some of their fundamental properties. ... Bagging predictors - Machine Learning regression trees and subset selection in linear regression show that bagging can give substantial gains in accuracy. The vital element is the instability of the prediction method. If perturbing the learning set can cause significant
